Introduction

Company Overview

With over three decades of expertise in high-security, SECURAM Systems Inc. offers a comprehensive product line, including door locks, access control systems, and biometric and electronic safe locks. Our products feature wireless connectivity, remote programming, and Dynamic OTC systems tailored for ATMs. Backed by our specialized R&D team and advanced production methods, we ensure the highest standards of quality, reliability, and cutting-edge technology.

Mission & Vision

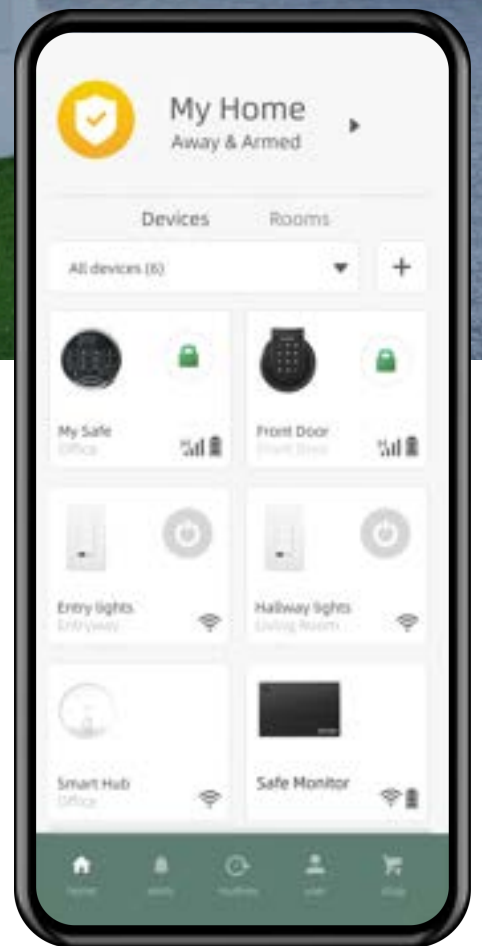

At SECURAM, our mission is clear: to safeguard what matters most to individuals and organizations. We envision a world where security seamlessly integrates into everyday life, offering protection without compromise.

Protect Your Home, Your Way

SECURAM's advanced Smart Home Security system ensures peace of mind with cutting-edge technology, reliable products, and seamless integration. Whether you're at home or away, control and monitor every corner of your property through the SECURAM Guard App.

The app connects all SECURAM devices, including locks, switches, sensors, and more, giving you complete control from your smartphone. With real-time alerts and customizable settings, your security is personalized to suit your lifestyle.

Total Control, Anytime, Anywhere

SECURAM provides the highest standard in home protection with smart, intuitive devices designed for modern living. The SECURAM Guard App brings it all together, delivering real-time updates and allowing you to secure your home from virtually anywhere.

SAFE MONITOR

24/7 MONITORING

INSTANT ALERTS

MULTIPLE USAGE

24/7 Monitoring

Stay informed with the Safe Monitor, sending real-time updates to your SECURAM Guard App on temperature, humidity, or unauthorized access. Customize alerts and enjoy reliable connectivity with dual Wi-Fi antenna options, keeping you notified of safe interactions, wherever you are.

Requirements

Wi-Fi Internet Connection (802.11 B/G/N 2.4GHZ)
2.4 Ghz Network
SECURAM Guard app
iOS or Android Smartphone

In the Box

Safe Monitor, 6" Wi-Fi Antenna, 72" Wi-Fi Antenna, 3 AA Batteries, Mounting Velcro and Hardware

Specifications

Model #: SH-SM01-A
Product Dimensions: 3.88 x 2.56 x 0.75" in
Device Specs: Wi-Fi Connectivity, Light Sensor, Vibration Sensor, Battery or AC Power Option
Operating Temperature: 32°F to 122°F (0°C to 50°C)
Operating Humidity: <95% RH

Easy Wi-Fi Setup

Remotely monitor your valuables from anywhere with the SECURAM Guard App.

Comprehensive Monitoring

Track temperature, humidity, door status, vibrations, and receive notifications on your phone.

Customizable Settings

Set acceptable temperature and humidity ranges and receive alerts if levels fall outside thresholds.

Advanced Security Features

Laser sensor alerts for open-door status, while the semiconductor vibration sensor detects movement.

Wide Application

Use in safes, cabinets, climate-controlled rooms, storage boxes, and more, with no monthly fees.

Wireless Control

Enhance security with remote monitoring through your smartphone using the SECURAM Guard app.

The SECURAM Guard app requires iOS 13+ or Android 6.0+

NON WI-FI

EOS FINGERPRINT DEADBOLT LOCK

UNLOCK IN SECONDS

DURABLE DESIGN

EASY TO INSTALL

Keyless Entry Redefined

The SECURAM EOS delivers fast, secure keyless entry using fingerprint technology, unlocking in under 0.4 seconds without Wi-Fi. It's easy to install with just a screwdriver and includes features like auto-lock and a Masking Code for extra security. Built to withstand the elements, it ensures reliable performance in any weather.

Requirements

Door Thickness: 1-3/8" - 2"

Backset: 2-3/8" or 2-3/4"

Installation: No drilling required, installs with just a screwdriver

In the Box

Touchpad, Interior Assembly, Deadbolt, Door Magnet, 2 Mechanical Keys, 4 AA Batteries, Mounting Plate, Mounting Tape, Mounting Hardware, Strike Plate & Box

Specifications

Model #: SH-WB01

Type: Fingerprint Deadbolt, Keyless Entry, Mechanical Key

Material: Stainless Steel Deadbolt, Aluminum Housing

Dimensions: 1.85 x 2.67 x 4.91 inches

Features: Fingerprint Scanner (2 enrolled fingerprints per user), 9 User Capacity, 4 - 8 Digit Code, Backlit Touchpad, Door Sensor, Built-in Speaker, 9V Battery Jumper, Physical Key, Touchscreen, Auto-Lock, Weather-Resistant

Color Options: Silver, Black

Operating Temperature: 14°F to 140°F (-10°C to 60°C)

Operating Humidity: 95% RH

Keyless Entry

Enables secure access for up to 9 users with two fingerprints and/or a unique code.

Rapid Biometric Access

Unlock your door in under 0.4 seconds using advanced fingerprint recognition technology.

Enhanced Security

Includes Auto-Lock functionality and Masking Code feature to prevent unauthorized access.

Weather-Resistant

Constructed with durable materials to withstand various environmental conditions.

Easy Installation

Quick and simple setup with just a screwdriver; no drilling required.

Battery-Operated

Powered by 4 AA batteries with a low-battery alert and emergency power option via a 9V jumper.

TOUCH SMART FINGERPRINT LOCK

FINGERPRINT ACCESS

APP CONTROL

SIMPLE INSTALLATION

One Touch Technology

Unlock your world with the SECURAM Touch, offering a blend of technology and security. Experience keyless entry like never before, providing 24/7 access control through advanced fingerprint recognition and versatile unlocking options. Designed to enhance your security without the need for Wi-Fi, this lock ensures rapid, reliable access in any setting.

Requirements

Door Thickness: 1-3/8" - 2"

Backset: 2-3/8" or 2-3/4"

Installation: No drilling required, installs with just a screwdriver

In the Box

Touchpad, Interior Assembly, Deadbolt, Door Magnet, 2 High-Security Keys, 2 CR123A Batteries, Mounting Plate, Mounting Tape, Mounting Hardware, Strike Plate & Box

Specifications

Model #: SH-TB01-02

Type: Fingerprint Deadbolt, Keyless Entry, High-security Keys

Material: Stainless Steel Deadbolt, Aluminum Housing

Dimensions: 2.44 x 3.19 x 1.93 inches

Features: Fingerprint Scanner (2 enrolled fingerprints per user), 30 User Capacity, 4 - 8 Digit Code, Backlit Touchpad, Door Sensor, Built-in Speaker, 9V Battery Jumper, Physical Key, Remote Control and Management*

Color Options: Silver, Black

Operating Temperature: 14°F to 140°F (-10°C to 60°C)

Operating Humidity: 95% RH

Multiple Unlocking Methods

Unlock via fingerprint, smartphone app, keypad, high-security mechanical keys, or voice control (via Alexa or Google Assistant with Smart Hub).

Biometric Fingerprint Unlock

Provides fast, secure access with 99.3% accuracy, unlocking in less than 0.4 seconds.

Remote Access and Control

Manage and monitor access remotely when paired with SECURAM Smart Hub.

Enhanced Security Features

Benefit from auto-lock, spy-proof code entry, and customizable user access.

Durable and Weather-Resistant

Built to last; withstands tampering and harsh weather conditions.

Easy Installation

Set up your lock quickly with simple tools and easy-to-follow instructions.

The SECURAM Guard app requires iOS 13+ or Android 6.0+

SMART HUB

Compatible Devices

TOUCH SMART LOCK

SMART SAFE LOCK B22

SMART SENSORS

Your Bridge to Total Connectivity

The SECURAM Smart Hub connects your SECURAM devices to the internet, allowing for remote control and voice activation. Manage the SECURAM Touch Smart Lock, Smart Safe Locks, and Smart Sensors via the SECURAM Guard App, giving you enhanced security and convenience whether you're at home or on the go.

Requirements

Wi-Fi Internet Connection (802.11 B/G/N 2.4GHZ)
2.4 Ghz Network
SECURAM Guard app
iOS or Android Smartphone

In the Box

SECURAM Smart Hub, Quick Start Guide

Specifications

Model Number: SH-HB01
Wi-Fi Requirement: Must be connected to a 2.4 GHz network
App Compatibility: SECURAM Guard app available for iOS (9.0 or later) and Android (6.0 or higher)
Dimensions: 2.67" x 1.57" x 0.63"
Wireless Range: Up to 50 feet
Power Input: AC 100 – 240 Volts
Output: 5.0 Volts, 0.6 Amps
Operating Conditions: Works within 0%RH~95%RH humidity and temperatures from -13 °F to 140 °F

Remote Access

Manage your SECURAM devices from anywhere in the world using the SECURAM Guard app.

Voice Control

Compatible with Amazon Alexa and Google Home for hands-free control.

Easy Setup

Simply plug into an outlet, connect to Wi-Fi, and set up via the SECURAM Guard app.

Comprehensive Integration

Seamlessly works with SECURAM Smart Door & Window Sensors to monitor your home in real time.

One-Time Access Codes

Generate temporary codes for guests, enhancing security and convenience.

Instant Notifications

Receive alerts on your smartphone about all security-related events at home.

The SECURAM Guard app requires iOS 13+ or Android 6.0+

SMART DOOR/ WINDOW SENSORS

EASY INSTALL

COMPACT SENSOR

SECURITY ALERTS

Real-Time Monitoring for Your Home

The SECURAM Smart Door/Window Sensor enhances your home security by providing real-time alerts through the SECURAM Guard App. Monitor the open/closed status of your doors and windows from anywhere.

Requirements

Wi-Fi Connectivity: 2.4GHz Wi-Fi network

SECURAM Smart Hub Required: Necessary for sensor functionality and app integration

Compatibility: SECURAM Guard App available for iOS 9.0 or later, or Android 6.0 or later

In the Box

Door Sensor, Magnet, 1x 3V CR2032 Coin Cell Battery

Specifications

Model Number: SH-DW01

Battery: 3V CR2032 coin cell (included)

Connectivity: Requires SECURAM Smart Hub

Operating Conditions: 0%RH95%RH; -25°C 60°C

Sensor Dimensions: 2.05" x 1.02"

Magnet Dimensions: 1.06" x 0.47"

App Compatibility: SECURAM Guard App available on iOS and Android

Remote Monitoring

Monitor the status of your doors and windows in real-time through the SECURAM Guard App

App Alerts

Receive instant push notifications when a door or window is opened or closed, ensuring 24/7 protection.

History Logs

Review the history of door/window activity, available in the SECURAM Guard App for added convenience.

Wireless Range

Enjoy reliable connectivity up to 50 feet from the SECURAM Smart Hub.

Long Battery Life

Powered by a CR2032 battery with a lifespan of up to 12 months.

The SECURAM Guard app requires iOS 13+ or Android 6.0+

WI-FI SECURITY SWITCH

LASER MOTION SENSOR

SMART CONTROL

REMOTE MONITORING

Smart Security, Simplified Lighting

The SECURAM Wi-Fi Security Switch combines advanced laser motion detection with smart lighting control, creating a seamless and secure home environment. Manage your lights and security remotely through the SECURAM Guard App or hands-free with voice commands.

Requirements

Wi-Fi Connectivity: 2.4GHz Wi-Fi network
Neutral Wire Required: Necessary for both single pole and 3-way switch installations
SECURAM Guard App

In the Box

Wi-Fi Security Switch, Face Plate, Screws, Wire Label, Installation Guide

Specifications

Part #: SH-SS01
Operating Voltage: 100-120V AC, 60Hz
Supported Load Types:

- 100-120V~ 5A Incandescent
- 100-120V~ 5A Electronic Fluorescent Ballast
- 100-120V~ 3A LED

Laser Motion Detection Range: Up to 6 feet
Wireless Frequency: 2.4 GHz
Wireless Standard: IEEE802.11 b/g/n
Operating Temperature: 32°F-104°F
Operating Humidity: 5%-85% RH (Non-condensing)
Dimensions: 2.91" x 1.69" x 4.69" (LxWxH)
FCCID: 2ACZ7-ESP32WROOM32E

Advanced Laser Motion Detection

Provides precise motion alerts up to 6 feet using laser technology, enhancing home security.

Voice Control

Hands-free lighting control via Amazon Alexa and Google Assistant for added convenience.

Custom Lighting Schedules

Set custom lighting scenes, timers, and schedules through the SECURAM Guard App, automating your daily routine.

3-Way Setup

Versatile installation options for single pole or 3-way switch setups, with a neutral wire required.

Enhanced Security Features

Simulate presence by automatically turning devices on and off to deter intruders.

Synchronized Light Groups

Group and control several lights simultaneously with just one command through the app.

The SECURAM Guard app requires iOS 13+ or Android 6.0+

WI-FI SMART SWITCH

SET LIGHTING SCENES

REMOTE CONTROL

VOICE ACTIVATED

Effortless Smart Lighting, Enhanced Control

Upgrade your home with the SECURAM Wi-Fi Smart Switch, designed for seamless lighting control. Manage lights remotely, customize lighting scenes, and use voice-activated commands via Alexa or Google Assistant for a truly hands-free experience.

Requirements

Wi-Fi Connectivity: 2.4GHz Wi-Fi network (5GHz not supported).
Neutral Wire Required: Necessary for proper installation.
SECURAM Guard App

In the Box

Wi-Fi Smart Switch, Face Plate, Screws, Wire Label, Installation Guide

Specifications

Part #: SH-SS02
Operating Voltage: 100-120V AC, 60Hz
Rating: 600W Incandescent
Supported Load Types: 100-120V AC, 60Hz
Wireless Frequency: 2.4 GHz
Wireless Standard: IEEE802.11 b/g/n
Operating Temperature: 32°F-104°F
Operating Humidity: 5%-85% RH (Non-condensing)
Dimensions: 2.91" x 1.69" x 4.69" (LxWxH)
FCCID: 2ACZ7-ESP32WROOM32E

Remote and Voice Control

Control lights via the SECURAM Guard App or voice commands through Amazon Alexa and Google Assistant.

Custom Lighting Scenes

Create and schedule custom lighting scenes to match your daily routine, such as sunrise or bedtime.

Easy Installation

Simple DIY installation, replacing any standard switch (Neutral wire required), with step-by-step guidance provided in the installation manual.

Enhanced Security

Control lights remotely to simulate occupancy, boosting your home's security when you're away.

The SECURAM Guard app requires iOS 13+ or Android 6.0+

Synchronized Light Groups

Group multiple SECURAM Smart Switches together for synchronized control with a single command.

WI-FI SECURITY DIMMER SWITCH

LASER MOTION SENSOR

SMART BUTTON CONTROLS

SET SCHEDULE & TIMERS

Control, Automate, and Personalize Your Lighting

The SECURAM Wi-Fi Security Dimmer Switch combines advanced laser motion detection with customizable lighting control. Set the perfect ambiance while enhancing your home security, all from your phone or with voice commands.

Requirements

Wi-Fi Connectivity: Requires a 2.4GHz Wi-Fi network

Neutral Wire Required: Necessary for installation

FCCID: 2ACZ7-ESP32WROOM32E

Advanced Laser Motion Detection

Provides precise motion alerts up to 6 feet using laser technology, enhancing home security.

Voice Control

Hands-free lighting control via Amazon Alexa and Google Assistant for added convenience.

Customizable Lighting Scenes

Set custom lighting scenes, schedules, timers, and adjust brightness for any occasion.

Dimmer Functionality

Adjust lighting intensity with precision to create the perfect ambiance for any environment.

Enhanced Security Features

Automatically turn lights on and off to simulate presence, deterring intruders and enhancing home security.

The SECURAM Guard app requires iOS 13+ or Android 6.0+

Installation

Easy installation with a neutral wire required for single pole setups.

PROLOGIC SMART SAFE LOCK

Revolutionary Remote Security

Gain full control of your valuables with the ProLogic Smart Safe Lock, offering advanced remote management through the SECURAM Guard App. Whether you're across the room or across the country, you can monitor, lock, or unlock your safe with ease.

SECURAM Guard App and Smart Hub
One hub can connect to multiple smart devices

Features

- **4 User Capacity:** 1 Super Code, 1 Admin Code, 1 Manager Code, 1 User Code
- **Super Code:** For programming, management, and control
- **Fingerprint Support:** Holds up to 5 fingerprints per user for fast access
- **Wireless Network Connectivity:** Via Smart Hub for remote management
- **Remote Control:** Manage and operate via the SECURAM Guard App*
- **Remote Open:** Unlock the safe remotely*
- **User Management:** Add or delete users from anywhere*
- **Push Notifications:** Get alerts for safe activity*
- **Guest Codes:** Send one-time, time-based guest codes*
- **Local Connectivity:** Operates via Bluetooth without Smart Hub
- **OLED Screen:** Provides clear user feedback for easy programming
- **Battery Management:** SureLock system; AC power optional
- **Standard Footprint:** Easy retrofit for mechanical or electronic locks
- **Finish Options:** Available in Chrome
- **Smart Hub Required:** For full remote features (sold separately)
- **Service Fee:** \$3.99/month or \$39.99/year, cancellable anytime

Requirements

Power Source: 9V Battery

Connectivity: SECURAM Smart Hub required for remote operation

In the Box

ProLogic Smart EntryPad (OLED Screen), Lock Body (SwingBolt, Deadbolt, or SpringBolt options), Mounting Hardware, Connection Cables

Specifications

Part #: EC-1701A-B22-C-II-CCH

EntryPad Dimensions: 3.94 x 2.60 x 0.79 inches

User Capacity: 4 users (1 Super Code, 2 Manager Codes, 1 User Code)

Code Length: 6-digit code

Battery Management: SureLock Battery Management

Connectivity: Requires SECURAM Smart Hub (sold separately)

Finishes Available: Chrome

Lock Body Compatibility: It is strongly recommended to use a lock body with an internal status sensor (EL-0601-S, EL-0701, EL-0801) for full audit trail reporting, including both lock open and lock close times.

SCANLOGIC SMART SAFE LOCK

Revolutionary Remote Access

With the ScanLogic Smart Safe Lock, manage access to your valuables from anywhere using the SECURAM Guard App. This lock provides advanced remote control features that make securing your most important items simple and convenient.

Features

- **4 User Capacity:** 1 Super Code, 2 Manager Codes, 1 User Code
- **Super Code:** For programming, management, and control
- **Wireless Network Connectivity:** Uses the Smart Hub for remote access
- **Remote Control:** Manage and operate via the SECURAM Guard App*
- **6-Digit Code:** Provides enhanced security
- **Remote Open:** Unlock the safe remotely*
- **User Management:** Add or delete users from anywhere*
- **Push Notifications:** Get alerts for safe activity*
- **Guest Codes:** Send time-based, one-time-use guest codes*
- **OLED Screen:** Simplifies programming with clear feedback
- **Battery Management:** SureLock system; AC power optional
- **Standard Footprint:** Easy retrofit for mechanical or electronic locks
- **Finishes:** Available in Chrome
- **Smart Hub Required:** For full remote features (sold separately)
- **Service Fee:** \$3.99/month or \$39.99/year, cancellable anytime

Requirements

Power Source: 9V Battery

Connectivity: SECURAM Smart Hub required for remote operation

In the Box

ScanLogic Smart EntryPad (OLED Screen), Lock Body (SwingBolt, Deadbolt, or SpringBolt options), Mounting Hardware, Connection Cables

Specifications

Part #: EC-1701A-B22-C-II-CCH

EntryPad Dimensions: 3.94 x 2.60 x 0.79 inches

User Capacity: 4 users (1 Super Code, 2 Manager Codes, 1 User Code)

Code Length: 6-digit code

Battery Management: SureLock Battery Management

Connectivity: Requires SECURAM Smart Hub (sold separately)

Finishes Available: Chrome

Lock Body Compatibility: It is strongly recommended to use a lock body with an internal status sensor (EL-0601-S, EL-0701, EL-0801) for full audit trail reporting, including both lock open and lock close times.

SAFELOGIC WI-FI SAFE LOCK

Smart, Reliable, Always Connected

Take control of your safe with the SafeLogic Wi-Fi Safe Lock. Manage up to 10 user codes, receive real-time alerts, and control access remotely using the SECURAM Guard App. This is next-level protection for your most valuable possessions.

Features

- **Plug-and-Play Retrofit:** Easily replace your SafeLogic entrypad to make it smart
- **User Codes in Analog Mode:** 1 Manager Code / 1 User Code
- **User Codes in Digital Mode:** 1 Manager Code / 9 User Codes
- **Code Length:** 6 Digits
- **Advanced Code Management:** Add/delete multiple user codes in Digital Mode
- **Phone Pairing:** Supports pairing with phone for management
- **Reset Code:** Ability to reset all codes to factory default
- **One-Time Use Codes:** Send time-based One Time Use codes to guests
- **Automatic Re-lock:** Relocks after 6 seconds
- **Standby Status:** Enters standby after 10 seconds of inactivity
- **Battery Replacement:** Uses one 9V alkaline battery
- **Open Lock:** Use SECURAM Guard app or code to open
- **Compatibility:** Can be paired with any SECURAM Lock
- **Standard Footprint:** Makes for easy retrofit
- **Wrong Entry Penalty:** 5-minute lockout after 4 invalid attempts
- **Finishes Available:** Matte Black

Requirements

Power Source: 9V Battery

Connectivity: SECURAM Smart Hub required for remote operation

In the Box

Wi-Fi Safe Lock EntryPad (OLED Screen), Lock Body (SwingBolt, Deadbolt, or SpringBolt options), Mounting Hardware, Connection Cables

Specifications

Part #: EC-W2301A-MB

EntryPad Dimensions: 4.07" x 4.07" x 1.39"

User Capacity: 4 users (1 Super Code, 2 Manager Codes, 1 User Code)

Code Length: 6-digit code

Connectivity: Wi-Fi enabled; requires SECURAM Guard App
Battery Management: Uses 9V alkaline battery; AC power option available

Modes: Single User Mode and Multi-User Mode (requires lock body reset)

Finishes Available: Matte Black

Lock Body Compatibility: It is strongly recommended to use a lock body with an internal status sensor (EL-0601-S, EL-0701, EL-0801) for full audit trail reporting, including both lock open and lock close times.

SCANLOGIC WI-FI SAFE LOCK

Biometric Precision, Smart Connectivity, Ultimate Protection

Experience unmatched security with the ScanLogic Wi-Fi Safe Lock. Featuring biometric access, smart connectivity, and the ability to manage up to 10 users, this lock ensures that your valuables are always protected and accessible, no matter where you are.

Features

- **Plug-and-Play Retrofit:** Easily replace your SafeLogic entypad to make it smart
- **Fingerprint Management:** Add/delete fingerprints for each user
- **Security Levels:** Level 1: Fingerprint or code; Level 2: Fingerprint and code
- **Wrong Entry Penalty:** 5-minute lockout after 4 invalid attempts
- **User Codes:** 10 Users (1 Manager Code, 9 User Codes)
- **Code Length:** 6 Digits
- **Advanced Code Management:** Add/delete multiple user and fingerprints
- **Phone Pairing:** Supports pairing with phone for management
- **Reset Code:** Ability to reset all codes to factory default
- **One-Time Use Codes:** Send time-based One Time Use codes to guests
- **Automatic Re-lock:** Relocks after 6 seconds
- **Standby Status:** Enters standby after 12 seconds of inactivity
- **Battery Replacement:** Uses one 9V alkaline battery
- **Open Lock:** Use SECURAM Guard app, code, or fingerprint to open
- **Compatibility:** Can be paired with any SECURAM Lock
- **Standard Footprint:** Makes for easy retrofit

Requirements

Power Source: 9V Battery

Connectivity: SECURAM Smart Hub required for remote operation

In the Box

Wi-Fi Safe Lock EntryPad (OLED Screen), Lock Body (SwingBolt, Deadbolt, or SpringBolt options), Mounting Hardware, Connection Cables

Specifications

Part #: EC-W2301A-Fin-MB

EntryPad Dimensions: 4.07" x 4.07" x 1.39"

User Capacity: 4 users (1 Super Code, 2 Manager Codes, 1 User Code)

Code Length: 6-digit code

Fingerprint Capacity: 2 fingerprints per user

Connectivity: Wi-Fi enabled; requires SECURAM Guard App

Battery Management: Uses 9V alkaline battery; AC power option available

Modes: Single User Mode and Multi-User Mode (requires lock body reset)

Finishes Available: Matte Black

Lock Body Compatibility: It is strongly recommended to use a lock body with an internal status sensor (EL-0601-S, EL-0701, EL-0801) for full audit trail reporting, including both lock open and lock close times.

SAFELOGIC STEALTH

**STANDARD NUMBER
PATTERN**

**RANDOMIZED
NUMBER FEATURE**

**BLACKOUT STANDBY
SCREEN**

Hi-Tech, Sleek, Reliable

The SafeLogic Stealth is designed for those who demand security with a modern touch. Its backlit LED display activates at your touch, while the randomized number feature and stealth mode ensure discreet and secure access to your valuables.

Features

- **Hi-Tech and Sleek:** Modern design with reliable performance
- **Stealth Mode:** Activate by holding the * button to turn off the beeper for silent entry
- **Randomized Number Feature:** Press * to randomize number placement, hiding your code
- **Touch Activation:** Swipe your palm across the screen to wake up the display
- **Simple Operation:** Enter your code and turn the safe handle
- **Codes: 2 Codes (Manager Code and User Code)**
- **Code Length: 6 Digits**
- **Compatibility:** Standard footprint and mounting pattern for easy retrofit
- **Durability: Stainless Steel** housing with CNC finish
- **Easy Battery Access:** Removable faceplate to access battery
- **Manual Locking Option:** Offers manual locking with the D-Drive Deadbolt, drilled and tapped
- **Automatic Locking Options:** Compatible with SECURAM Lock Bodies
- **Available Finish:** Chrome
- **Part # for D-Drive Lock:** EC-2001A-DT-CCH-DL
- **Part # for Standard Locks:** EC-2001A-DT-CCH-EL

Simple to use. Reliable. Unique.

- **Touch Activation:** Swipe your palm across the screen to wake up the display.
- **Randomized Numbers:** Press * to activate a random number sequence for added security.
- **Stealth Mode:** Press and hold * to mute the beeper and enter your code silently.
- **Sleek Design:** Blackout standby screen for a modern, hi-tech look.

SAFELOGIC S-SERIES

Reliable, Sleek, Secure

The SafeLogic S Series is a highly reliable and robust safe lock system, perfect for low-profile applications. Its sleek, slim design and advanced features make it an ideal choice for ensuring the security of your valuables.

Features

- **User Codes:** 1 Manager Code, 1 User Code
- **Reset Code:** Easily reset your access codes
- **Code Length:** 6-digit code
- **Low Profile Keypad:** 22.7 mm in thickness
- **Security Features: Penalty Lockout:** Activates after 4 incorrect codes
- **Compatibility:** Can be paired with any SECURAM Lock Body
- **Installation:** Standard footprint and mounting pattern, easy retrofit for any mechanical or electronic safe lock
- **Simple Operation:** Enter your code and turn the handle for seamless safe access.
- **Easy Battery Access:** The removable faceplate allows for quick and easy battery replacement
- **Penalty Lockout:** Activates after 4 incorrect code attempts to prevent unauthorized access.
- **Available Finishes:** Matte Black

Slim, Sleek Design

This entrypad is 23mm thickness, making it ideal for low-profile applications

Easy Battery Access

Allows code changes, additions, and deletions. Enable and disable functions are also available.

Removable Faceplate

Provides easy access to replace the battery without needing to open the safe door

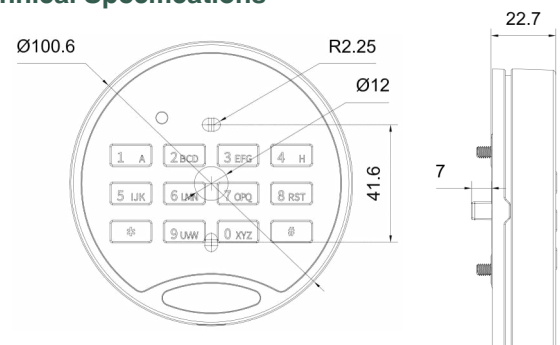

Quality Assurance

Built to last, each lock undergoes a rigorous 500-cycle quality assurance test

Part Numbers

- **EC-2201A-MB-EL:** SafeLogic S Series Entrypad for EL Models
- **EC-2201A-MB-DL:** SafeLogic S Series Entrypad for DL Models
- **Compatible Lock Bodies:** EL-0601 SwingBolt, DL-1701 D-Drive DeadBolt, EL-0701 DeadBolt, EL-0801 SpringBolt, EL-0901 StrikeBolt

Technical Specifications

SAFELOGIC SERIES

SAFELOGIC BASIC

The SafeLogic Basic is a dependable and durable safe lock system designed for a wide range of applications, featuring SECURAM's robust stainless steel construction.

Features

- **2 Codes:** Manager Code and User Code
- **Battery Powered:** Uses one 9V alkaline battery
- **Penalty LockOut:** 5-minute lockout after 4 incorrect code entries
- **Reset Button:** Resets the lock to factory settings
- **Easy Retrofit:** Standard footprint and mounting pattern for seamless installation on any mechanical or electronic safe lock
- **SureLock Battery Compartment:** Allows easy battery replacement without removing the entrypad from the door
- **Compatible:** Pairs with any SECURAM motorized lock bodies
- **Available finishes:** Chrome, Brass, Black Chrome
- **Part #** EC-0601A-II

The SafeLogic TopLit is a durable, user-friendly safe lock with a bright LED TopLight. Its interchangeable chrome and brass rings provide both functionality and style, making it ideal for securing your valuables.

Features

- **2 Codes:** Manager Code and User Code
- **Battery Powered:** Uses one 9V alkaline battery
- **Penalty LockOut:** 5-minute lockout after 4 incorrect code entries
- **Reset Button:** Resets the lock to factory settings
- **Easy Retrofit:** Standard footprint and mounting pattern for seamless installation on any mechanical or electronic safe lock
- **SureLock Battery Compartment:** Allows easy battery replacement without removing the entrypad from the door
- **Compatible:** Pairs with any SECURAM motorized lock bodies
- **Available finishes:** Chrome, Brass
- **Part #** EC-0601A-PL

SAFELOGIC TOPLIT

The SafeLogic BackLit provides reliable security with a backlit entrypad for easy access in low light. Its functional, durable design makes it a dependable choice for protecting your valuables.

Features

- **2 Codes:** Manager Code and User Code
- **Battery Powered:** Uses one 9V alkaline battery
- **Penalty LockOut:** 5-minute lockout after 4 incorrect code entries
- **Reset Button:** Resets the lock to factory settings
- **Easy Retrofit:** Standard footprint and mounting pattern for seamless installation on any mechanical or electronic safe lock
- **SureLock Battery Compartment:** Allows easy battery replacement without removing the entrypad from the door
- **Backlit EntryPad:** Illuminates when any button is pressed for easy access
- **Compatible:** Pairs with any SECURAM motorized lock bodies
- **Available finishes:** Chrome, Brass, Black Chrome
- **Part #** EC-0601A-BL-II

SAFELOGIC BACKLIT

SAFELOGIC DIRECT DRIVE

SAFELOGIC DIRECT DRIVE

The Direct Drive is a reliable, innovative safe lock system offering manual bolt operation. Enter a valid code, turn the EntryPad to retract the DeadBolt, which is perfect for push/pull applications. The drilled and tapped bolt allows secure attachment to boltwork or extensions. The stainless steel EntryPad ensures durability, while the 9V battery, housed in the EntryPad, is easy to change.

Features

- **2 Codes:** 1 Manager Code and 1 User Code
- **Code Length:** 6-digit code for secure access
- **Manual Bolt Retraction:** Enter a valid code, then turn the EntryPad to retract the DeadBolt
- **Unique No-Twist Cable Design:** Prevents cable twisting, ensuring reliable performance
- **Drilled and Tapped DeadBolt:** Allows bolt extensions or attachments for added security
- **Battery Powered:** 10,000+ openings on a 9V battery
- **User Code Management:** Enable and disable User Codes for access control
- **Standard Footprint:** Easy retrofit for any mechanical or electronic safe lock
- **Available Finishes:** Chrome
- **Part #** EM-1701A-R-CCH + DL-1701

SAFELOGIC C-10 DIRECT DRIVE

The SECURAM Direct Drive is a robust and innovative safe lock system, offering manual bolt operation with precise control. Enter a valid code and turn the EntryPad to retract the bolt, making it ideal for push/pull applications. The DeadBolt features a drilled and tapped bolt for easy attachment of extensions. Additionally, the system supports C10 Audit Software, providing a 100-event audit trail for detailed tracking of access attempts. The stainless steel EntryPad boasts a high-tech milled finish, with a conveniently housed, easily replaceable 9V battery.

Features

- **10 Codes:** Includes 1 Manager Code and 9 User Codes
- **Manual Bolt Retraction:** Enter a code and turn the EntryPad to retract the DeadBolt
- **No-Twist Cable Design:** Ensures reliable operation and prevents cable twisting
- **Drilled and Tapped DeadBolt:** Allows for easy bolt extension or attachments
- **Audit Trail:** Logs up to 100 events with C10 Audit Software (sold separately)
- **Time Delay:** Programmable 1-45 minutes, with an opening window of 1-15 minutes
- **Durable Construction:** Stainless steel EntryPad with a high-tech milled finish
- **Battery Powered:** 10,000+ openings on a single 9V battery
- **Easy Battery Replacement:** SureLock Battery Compartment allows for easy replacement without removing the EntryPad
- **Part #:** EM-1701A-C10-R-CCH + DL-1701

PART # UA-1801

LOCK BODIES

SwingBolt Lock

The SwingBolt is a motor-driven lock featuring a swingbolt and auto relocking mechanism. It is certified in accordance with EN1300 class B and UL Type 1.

Part # EL-0601

DeadBolt Lock

The DeadBolt is a motor-driven deadbolt lock that uses a patented "helix compression" retraction method to retract the lock bolt, which auto-extends after 6 seconds. It includes an integrated lock status sensor and is certified in accordance with EN1300 class B and UL Type 1.

Part # EL-0701

D-Drive DeadBolt

The DeadBolt is a motor-driven deadbolt lock that uses a patented "helix compression" retraction method to retract the lock bolt, which auto-extends after 6 seconds. It includes an integrated lock status sensor and is certified in accordance with EN1300 class B and UL Type 1.

Part # EL-1701

SpringBolt

The SpringBolt is a motor-driven lock with a non-dead latching square bolt, ideal for interior compartment applications. It includes an integrated lock status sensor and is certified in accordance with UL Type 1.

Part # EL-0801

StrikeBolt

The StrikeBolt lock uses a motor-driven strike mechanism, suitable for interior compartments or cabinet applications. It is certified in accordance with EN1300 class B and UL Type 1.

Part # EL-0901

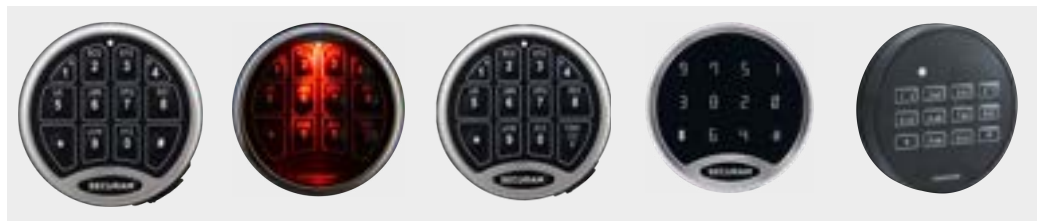

SAFELOGIC SERIES

COMPARISON

Reliable and Versatile Safe Lock Solutions

The SafeLogic Series provides reliable electronic safe locks designed for seamless security. Featuring a simple 6-digit code entry, these locks offer robust functionality across a variety of applications. Whether you need basic access control or additional features like backlighting, the SafeLogic Series offers the flexibility to meet your needs.
